## THE BOARD OF EXAMINERS IN MIDWIFERY.

The Board consists of four Members annually elected, viz. :—The Chairman, one of the Vice-Presidents of the College, and three other Members, who are required to be elected either from the Fellows or Members of the College, or from the Fellows or Licentiates of the Royal College of Physicians of London. The Board conducts the Examination of Candidates for the Licence in Midwifery. *There have not been any appointments made during the last eight years, and the Examinations are suspended until further notice.*

---

## BOARD OF EXAMINERS IN DENTAL SURGERY.

The Board consists of six Members elected by the Council for five years, viz. :—three Members of the Court of Examiners of the College, and three other persons skilled in Dental Surgery. The Board conducts the Examination of Candidates for the Diploma in Dental Surgery of the College. During the year there have been three Meetings of the Board, and twenty-five Candidates have been examined, twenty-three of whom obtained the Diploma.

## THE SECRETARY'S REPORT.

---

THE Secretary's Report prepared in pursuance of the resolution of the Council of the 9th of December, 1880.

At the Quarterly Meeting of the Council on the 13th of July, 1882, the following letter from Mr. John Marshall, reporting, as Representative of the College, the proceedings of the General Medical Council, was read, and directed to be entered on the Minutes, viz. :—

10 Savile Row,  
13 July, 1882.

*To the President and Council of the Royal College of Surgeons of England.*

GENTLEMEN,—

I have the honour to submit to you the following narrative of such of the proceedings at the recent Session of the General Medical Council as relate immediately to this College, or may be of interest to its Council.

According to returns presented to the General Medical Council from the Army and Navy Medical Departments, it appears that all the Candidates who held the Diploma of this College were found qualified on Examination for vacancies in those services, though all could not receive appointments.

The Committee appointed by the Medical Council to inquire and report on the desirability and possibility of instituting a Preliminary Scientific Examination, to be held either before the commencement of, or not later than the end of, the first year of professional study, received replies from four other bodies besides this College, and, having considered these replies, adhered to its former report, but made no recommendation to the Medical Council.

The numerous and complicated questions concerning the character, extent, and mode of conduct of the Professional Examinations of the nine Licensing Corporations of the United Kingdom, arising out of the Report of the Visitors of those Examinations and the remarks by the Corporations on that Report, were practically raised in the Medical Council by a series of discussions and votes on the several Conclusions contained in pp. 56 and 57 of the Visitors' Report.

The result of these discussions was the adoption, in the shape of Resolutions more or less qualified in their terms, of most of the Conclusions in the Visitors' Report.

These Resolutions, with the Report itself and the remarks of the several

Corporate Bodies thereon, will be forwarded to this College, as one of the Medical Authorities of the United Kingdom. They will then, no doubt, receive due consideration.

In the mean time I may be allowed to state that, as your representative in the Medical Council, I showed the impossibility of carrying out at the Examinations of this College the proposal to require actual "Dissections" by Candidates at the Primary Examinations, and "the performance of Operations" by the Candidates at the Pass Examinations, without seriously diminishing the resources of the Anatomical and Surgical Schools of the Metropolis, which resources are not now fully adequate to meet the legitimate demands upon them as teaching Institutions.

In reference to this question, the Medical Council has appointed a Committee of Inquiry to report upon "the supply of subjects for Anatomical and Surgical teaching and examination," the labours of which Committee, if conducted with proper care, may, it is hoped, be productive of benefit.

As regards the "general impression" expressed in the Visitors' Report as to the undue severity of the Primary Examinations at this College, I was able to show that the percentage of rejections at them was below that of any other Examinations with which they could be compared. The criticisms of the Visitors on the mode of marking at the same Examinations were not sustained in the discussion before the Council, and were not made the subject of any proposition; but a Resolution on the desirability of giving additional time to Candidates in doubtful cases was adopted.

In the discussion of questions relating to the Preliminary Examination in General Education, due credit was given to this College for having taken the important step of surrendering its previous position in this respect; and there can be little doubt that its example and that of the Royal College of Physicians of London will be followed by other Corporate Bodies at a not very distant period. Judging from the numerous details which have now to be considered by the General Medical Council in connexion with this subject, the Council of the College may be congratulated on having freed itself from much collateral and inappropriate work.

In reference to Dental questions, it has to be observed, first, that whilst in the year 1881, in three other Examining Institutions, 296 out of 297 candidates for a Dental qualification were examined "sine curriculo," only 3 out of 22 Candidates were examined at this College without having passed through the required curriculum of study. Secondly, it has to be noted that an alteration in the Dental curriculum has been approved by a Resolution in the Medical Council, which sanctions the taking of any part of the "three years" of instruction required in Mechanical Dentistry before the passing of a Preliminary Examination in General Education, *i. e.* before registration, provided that the time thus occupied does not count as part of the four years of professional study. This relaxation is not in harmony with the present rules of this College, which require that the whole of the three years devoted to Mechanical Instruction should be taken within the four years of professional study. The subject will doubtless be referred to the Dental Examiners to report to the Council of this College thereon.

In conclusion, I have to remark that the General Medical Council has taken no action in regard to the recently issued Report of the Royal Commission on the Medical Acts.

I am, Gentlemen,  
Yours faithfully,  
JOHN MARSHALL.

At the Ordinary Meeting of the Council on the 3rd of August, 1882, the following Report of a Joint Committee, on the establishment of an Examination in Elementary Anatomy and Physiology after the expiration of the first year of study, was approved and adopted, viz.:—

The Joint Committee report that, in pursuance of the following Resolution of the Council of the 8th ultimo, viz.:

“That the attention of the Authorities of the several recognized Medical Schools in England be directed to the resolution adopted by the Council at the last Meeting, viz.:—that “it is desirable that an Examination in Elementary Anatomy and Physiology should be instituted at the several recognized Schools of Medicine after the end of the first year of Professional Study,” &c.; that the Teachers of Anatomy and Physiology in those Schools be invited to confer with the Joint Committee of the College,—appointed to consider the question,—on the mode of carrying out the proposed Examination, and that the Joint Committee do report thereon to the Council,”

an invitation was sent to the Teachers of Anatomy and Physiology in the several recognized Medical Schools in England, to attend a meeting at the College on the 26th ultimo, to confer with the Committee on the advisability and practicability of carrying out the proposed Examination in Elementary Anatomy and Physiology, that twenty-nine of the Teachers attended the meeting, and letters were read from several others unable to be present, that the subject was fully discussed, that Resolutions were carried by a large majority of the Teachers in favour of the institution of the Examination in question, and that the Joint Committee, having met on the 22nd instant to consider the result of the Conference, recommend the following Resolutions for adoption by the Council, viz.:—

That all Candidates commencing their professional studies on or after the 1st of October, 1882, and pursuing those studies in recognized Medical Schools in England, be required, before presenting themselves for the Primary or Anatomical and Physiological Examination for the Diploma of Member of the College, to

produce certificates of having passed an Examination in Elementary Anatomy and Physiology, such Examination to be conducted by their Teachers at the several Medical Schools.

That the periods at which the Examination shall be held be determined by the Teachers at the several Medical Schools, provided that an interval of not less than six months shall elapse between the date at which the Candidates shall have passed the Examination and the date of their presenting themselves for the Primary Examination at the College.

And that it be left to the Teachers at the several Medical Schools to determine the nature and extent of the Examination in Elementary Anatomy and Physiology.

*July 22nd, 1882.*

JOHN BIRKETT,  
*Chairman.*

At the Quarterly Meeting of the Council on the 19th of October, 1882, the President reported the receipt of the sum of £900 3-per-cent. Consols, the amount of the Bradshaw Bequest, and that, in pursuance of the provisions of the Bequest, he had "chosen" Sir James Paget, Bart., as the first Bradshaw Lecturer.

At the Ordinary Meeting of the Council on the 14th of December, 1882, a vote of condolence was unanimously passed to the families of the late Mr. George Critchett and the late Mr. George Gulliver, in reference to the loss respectively sustained by them.

At this Meeting the following letter from Sir William Jenner, Bart., President of the Royal College of Physicians, inviting the Council to send Delegates to meet and confer with a Sub-Committee of the Royal College of Physicians, on the possibility of bringing about a combination between the two Colleges for a conjoint complete Medical and Surgical Examination, was read and directed to be entered on the Minutes, viz. :—

Royal College of Physicians,  
London, S.W.  
November 21, 1882.

DEAR MR. PRESIDENT,—

In a letter dated July 1880, received from a former President of your College, a proposal was made that this College should appoint Delegates to confer with Members of your Council "on the practicability of making arrangements for a Joint Examination for qualification to practice Medicine, Surgery, and Midwifery."

At that time, this College considering, rightly or wrongly, that it was pledged to the Scheme, dated May 1877, for a Conjoint Examining Board, felt that it could not take part in the formation of any other Examining Board until the five years fixed for the duration of that Scheme had elapsed.

That period expired on the 1st of October last, and the subject of the formation of a Conjoint Examining Board for England was at the earliest possible opportunity again brought under the consideration of this College; and at a General

Meeting held on November 6th a Committee was appointed to consider "what combination the College can best enter into for Examination-purposes so as to secure for England, without further delay, one complete Pass Examination Board which shall be satisfactory to the Profession, the Medical Council, and the Government."

This Committee met on the 9th instant, when the following Resolutions were adopted :—

1st. "That, in the opinion of this Committee, it is desirable in the interests of the Profession, and would be to the advantage of the Public, that the Royal College of Physicians and the Royal College of Surgeons of England should combine to form a Common Joint Examining Board for granting their respective Licences in Medicine and Surgery."

2nd. That a Sub-Committee, consisting of

The President,	Dr. Sieveking,
Sir Risdon Bennett,	Dr. Ord,
Sir William Gull,	and
Dr. Acland,	The Registrar.

be appointed "to communicate with the authorities of the Royal College of Surgeons, to consider and report under what conditions, if any, a combination can be arranged for a Conjoint complete Medical and Surgical Examination."

I have, on behalf of the Committee, to invite your Council, if it be still of the opinion expressed in the letter of July 1880, to appoint Delegates to confer with the Sub-Committee of this College at some early and, to yourselves, convenient date, on the subject matters referred to in the above Resolutions.

Believe me to be,  
 dear Mr. President,  
 Yours faithfully,

*To the President, Royal College  
 of Surgeons of England.*

WILLIAM JENNER.

The Council having considered such letter, resolved unanimously :

That the Council cordially accept the invitation of the President of the Royal College of Physicians, and that seven delegates be now appointed to meet the Sub-Committee of the Royal College of Physicians for the proposed Conference.

The Presidents and Vice-Presidents, together with Sir James Paget, Bart., Mr. Erichsen, Mr. Savory, and Mr. Holmes were thereupon elected the seven Delegates to meet and confer with the Sub-Committee of the Royal College of Physicians.

At the Quarterly Meeting on the 11th of January, 1883, matters of routine engaged the attention of the Council.

At the Ordinary Meeting of the Council on the 8th of March, 1883, the following Scheme, dated the 15th of February, 1883, and agreed to by the

Delegates appointed by the Royal College of Physicians, for the formation of an Examining Board in England under Clause XIX. of the Medical Act (1858), was approved and adopted, as follows, viz. :—

Part I.—SCHEME FOR CONSTITUTING AN EXAMINING BOARD IN ENGLAND UNDER THE PROVISIONS OF CLAUSE XIX. OF THE MEDICAL ACT, 1858.

Scheme for constituting an Examining Board in England by the Royal College of Physicians of London and the Royal College of Surgeons of England, submitted to the consideration of those authorities.—*February 1883.*

- I. That a Board of Examiners be appointed in this Division of the United Kingdom by the co-operation of the Royal College of Physicians of London and the Royal College of Surgeons of England ; it being understood that, liberty being left to each College to confer as it may think proper its honorary distinctions, each of them will abstain, so far as allowed by law, from the exercise of its independent privilege of giving a qualification necessary for admission to the " Medical Register."
- II. That the Board be constituted of Examiners appointed by the Royal College of Physicians of London and the Royal College of Surgeons of England, in such manner as they shall severally think fit.
- III. That Examiners be appointed to conduct Examinations on the following subjects :—
  1. Chemistry and Chemical Physics ;
  2. Materia Medica ;
  3. Medical Botany ;
  4. Pharmacy ;
  5. Anatomy ;
  6. Physiology ;
  7. Medicine ;
  8. Surgery ;
  9. Midwifery ;
  10. Forensic Medicine ;
 or on such subjects as may be hereafter required.
- IV. That the appointment of Examiners be apportioned according to a plan to be agreed upon by the two Colleges.
- V. That a Committee of Management be appointed, to consist of three Representatives from each of the two Colleges ; and that no Member of such Committee be eligible for appointment as an Examiner.
- VI. That one Representative from each College retire from the Committee annually, but that the retiring Members be eligible for reappointment.
- VII. That two Representatives from each College constitute a quorum of the Committee.

VIII. That the duties of the Committee of Management be as follows:—

1. To arrange the Examinations, in accordance with Regulations approved by the two Colleges.
2. To appoint paid Visitors of the First and Second Examinations.
3. To consider such questions in relation to the Examinations as they may think fit, or such as shall be referred to them by either or both Colleges, and to report thereon.

IX. That there be three Examinations on Professional subjects.

X. That the fees for the Qualifications of the two Colleges remain as at present.

XI. That each College pay the Examiners whom it may appoint.

XII. That every Candidate who shall have passed the Final Examination conducted by the Board shall, subject to the Bye-Laws of each College, be entitled to receive the Licence of the Royal College of Physicians of London and the Diploma of Member of the Royal College of Surgeons of England.

XIII. That either of the Colleges shall be at liberty to withdraw from this Scheme, and from the Examining Board to be constituted hereunder, at any time after five years from the 1st day of October, 1883, on giving to the other College one year's previous notice in writing, dating from the 1st day of October in that year, of its intention so to do; and that, at the expiration of the time limited by such notice, the College giving the same shall be released from all obligation to conform to the terms of this Scheme, or to any rules or regulations which may hereafter be made for giving effect to it.

WILLIAM JENNER,

*President of the Royal College of Physicians, London.*

THOMAS SPENCER WELLS,

*President of the Royal College of Surgeons of England.*

February 15, 1883.

At the Extraordinary Meeting of the Council on the 29th ultimo, the Medical Act Amendment Bill (1883) was taken into consideration, and the following statement relating to the Bill, prepared by the President and Vice-Presidents, was approved and adopted, viz:—

STATEMENT, presented by the President and Vice-Presidents to the Council of the ROYAL COLLEGE OF SURGEONS OF ENGLAND, and adopted by the Council of the 29th March, 1883, respecting the Provisions of the MEDICAL ACT AMENDMENT BILL introduced into the HOUSE OF LORDS (1883).

THE Council of the Royal College of Surgeons of England desires to avail itself of the opportunity afforded by the postponement of the second reading of the

"Medical Act Amendment Bill," just introduced by Her Majesty's Government into the House of Lords, to express its opinions on the principles and details involved in certain of the provisions of the Bill.

The Council is anxious, at the outset, to remark that it has long been prepared to take part, and is now ready to co-operate, in a duly organized combination or unification of the Medical Examining Authorities in its own division of the United Kingdom, for the purpose of securing such a complete qualifying Examination as would, for England at least, be productive of great and obvious advantage to Medical Education, would raise the status of the General Practitioners of Medicine, Surgery, and Midwifery throughout the country, and thus be of service to the community.

After a careful consideration of the proposed Bill, the Council feels bound to state that, in its opinion,—whilst some of the provisions of the Bill appear to be well-adapted to bring about a consolidation of the present examining Authorities in each division of the Kingdom, and to provide for other requirements of Home, Colonial, and Foreign Practitioners, in relation to each other and to the Public,—there are other provisions, which are open to grave objection, not merely because they would surely tend to diminish the influence of existing Institutions of acknowledged experience, of long established reputation, and of recognized utility, which are able and willing to do all that is essential to accomplish the improvements demanded, but also because the new Authorities and powers proposed to be created by the Bill for accomplishing the same ends, could not possibly realize better Examinations, and therefore better results for Medical Education, for the Medical Profession, and for the Public.

On behalf of an Institution which takes the most active part and by far the largest share in the work of Medical Examination in the whole Kingdom, the Council of the Royal College of Surgeons of England considers it to be its duty to set forth the conclusions at which it has arrived, first, upon those provisions of the Bill which affect Medical Education and Examinations, and the Grant and Registration of Medical Titles; and, secondly, upon various other provisions which relate to the general working of the contemplated measure.

#### 1. PROPOSALS RELATING TO MEDICAL EDUCATION AND EXAMINATIONS AND TO THE GRANT AND REGISTRATION OF MEDICAL TITLES.

*Medical Boards.*—The proposals referring to the functions and duties of Medical Boards are to be found distributed through many different parts of the Bill, and require to be carefully followed throughout.

Thus, it is proposed (Clause 9) to establish three Medical Boards, one in each division of the Kingdom, the Members of which are to be elected by the several existing Medical Authorities, in the corresponding division. These Boards (Clause 10) are to frame "Schemes" for securing a single and efficient qualifying "Final Examination" each in its own division of the Kingdom, the admission to such Examination being dependent on the passing through a "prescribed course" of Education and Examination by competent recognized Examining Authorities, also to be defined and prescribed by the Medical Board of that division of the Kingdom (Clauses 19 and 20).

Such a proposal, carried out justly and consistently with the acquired rights and properly exercised privileges of existing Institutions, would so far fulfil the

purposes which the College of Surgeons had in view, in agreeing to take part in the so-called "Conjoint Scheme," which was rendered abortive by the difficulty of obtaining similar combinations in Scotland and Ireland, and by the continual expectation of Legislation on the subject. The College is even now proposing, at some risk, it is thought by many, to its popularity and prosperity, to combine with the Royal College of Physicians of London, to obtain similar ends, without further Legislation, under the existing powers of the Medical Acts now in force, in the hope that their example may be sooner or later followed, on a similarly complete plan, in Scotland and in Ireland. If the Colleges of Physicians and Surgeons in those divisions of the Kingdom were also thus to combine, the solution of the problem of reducing the number of separate Examining Authorities, and of equalizing and supervising their Examinations, would be materially aided, and the need for legislative interference would be no longer urgent, except for the purpose of securing that no person could be registered without a double qualification in Medicine and in Surgery.

But, in the Bill now before the House of Lords, it is proposed to incorporate these three elected Medical Boards, to give them an existence in perpetuity (Clause 9, Section 6), to enable them to acquire property, to empower them to receive fees, and to pay the Examiners and the expenses of the Final Examinations (Clause 38). It is further proposed, subject no doubt to the approval of the Medical Council and Privy Council, that these Boards may declare themselves recognized Examining Authorities for the earlier Examinations (Clause 20, page 11, five words in line 3); although they (Clause 9, Section 9) may be in part composed of Non-Medical Members.

Against these several proposals the Council of the College of Surgeons energetically protests. It is the opinion of the Council that the functions of the Medical Boards, if they should be established, should be strictly limited to framing "Schemes" for the Course of Medical Education, for the conduct of all the necessary professional Examinations, both early and final, for the due Certification of the results of such Examinations, and for such general supervision of the Examinations by themselves, or by appointed Visitors, as would enable them to provide that such Schemes were properly carried into effect,—of course with power and duty to report to the Medical Authorities and to the Medical Council thereon. Such would be legitimate functions and duties of Medical Boards, elected by the constituted Medical Authorities, and placed, as it were, in mid-relationship between those Authorities and the Medical Council.

On the other hand, to endow these Medical Boards, elected by the Medical Authorities, with such independence and power as is contemplated in the Bill, would be to create, by the action of the already Constituted Medical Authorities, new and unnecessary outside Authorities, equal in influence to those Authorities themselves; and, indeed, taken in connection with other provisions in the Bill relating to the proposed sole qualifying Medical Titles and its registration, to which further attention will be presently directed, superior to those Authorities. In the opinion of the Council, the loss or diminution of privilege, position, and influence, in this way inflicted on the Constituted Medical Authorities would be accompanied by no commensurate advantage to the Profession or to the Public. The employment of such intermediaries for such purposes would yield no results better than those which are attainable by leaving such functions in the hands of the Combined Constituted Authorities themselves.

Under the Bill, for example, the Council of the College would have, about once

in five years, the small privilege of electing one fifth of the representatives on a Medical Board, to which would be assigned the power of declaring the competency of the Council itself as a "recognized examining authority," to conduct, or to appoint its Examiners to conduct, the *earlier* Examinations, which are now its own of right; and, as regards the Final or qualifying Examination admitting that that is to be held under a Scheme framed by the Board, according to which the College would have no security that it could *appoint* the Surgical Examiners, it would not pay those Examiners, nor would it pay the expenses of the Examinations, and so would lose practical interest and control over the character and completeness of this Final Examination—an Examination for the holding of which it has been specially chartered, to which it attaches the deepest significance, in relation to its duty to itself and to the Public, and which it guards with a strictness which is believed (by some of its critics) to be needlessly severe.

*Medical Titles and their Registration.*—The objections which the Council of the College of Surgeons has thus urged to the endowment of the proposed Medical Boards, with a Corporate existence, with independent pecuniary resources, and with the power to receive fees and to pay the Salaries of Examiners and the Cost of Examinations, and therefore with the influence and rights which would indubitably flow from such Endowment,—acquire still greater force when the further proposals of the Bill in regard to the Grant and Registration of Medical qualifying Titles are taken into consideration.

Thus the sole qualifying Examination being the Final Examination conducted under the Scheme framed by the Medical Board for England, in which the Surgical Examiners would presumably be those acting for the Royal College of Surgeons, the *only qualifying title* obtainable by home practitioners, on and after the day on which the contemplated measure comes into operation, would be that of "Licentiate of the Medical Council in Medicine, Surgery, and Midwifery" (Clause 27); and this is to be the only Medical qualifying title which would after that date be entered upon the Medical Register, in its first appropriate column of titles (Clause 29). The intention and effects of these proposals, at which the Council cannot help expressing both surprise and regret, would seem to be to exclude from the Register in future the title M.R.C.S.E., as it is now granted, as well as other similar "lowest" qualifications. At the same time, these proposals would admit, on the part of the Medical Council, a "Licensing" as well as a "Registering" function,—a singular and unheard of anomaly in regard to a body which is not itself to examine.

It further seems to the Council that this exclusion of the lowest titles from the columns of the Register is intentionally encouraged or invited; for (under Clause 36) it is proposed that "any of the Medical Authorities sending a representative to the Medical Board may, if it thinks it expedient to do so, admit *without further examination* any person who has passed a Final Examination under the Act to its lowest qualification;" in which case these lowest qualifications could not be registered in the column for "higher Medical titles" (Clause 27, p. 13), which are defined to be such as "in the judgment of the Medical Council appear to be granted on a substantially higher degree of knowledge or as a testimonial of higher distinction" (Clause 27, p. 14).

The Royal College of Surgeons, and any other Institution which continued to grant "lowest" qualifications, would accordingly be placed in this dilemma, either to add to their Examinations for their lower qualification something that would, in the judgment of the Medical Council, imply a substantially higher

knowledge, or submit to the exclusion of the title from the Register. In the former case, the Council of the College feels that it would be acting inconsistently in giving a further troublesome and superfluous examination to persons, whom, by their own Examiners, under a Scheme, it had already declared competent to practise Surgery; it would expose itself to the charge of seeking an opportunity of securing or augmenting its diploma fees; and it would bring its Membership or lower qualification, thus elevated, into collision with its higher one, the Fellowship. Nor could it be expected that the Fellowship would be much more frequently taken than it is now. In the latter case (that is, of the exclusion of the lower qualification of the College from the Register) the following undesirable consequences would ensue:—The title of M.R.C.S.E., which is now registrable, and which would remain registrable, under the new Act, in respect of persons already in possession of it, would not be registrable in respect of persons whose first registration took place under that Act, even though they did possess it; though not registered, it might be used notwithstanding the general and most desirable prohibition, in the proposed Act, of the use of any Medical title or designation whatsoever which is not entered on the Register (Clause 28, Sect. 2), a special provision in that Clause (ditto, p. 15) enabling it to be so used; the fraudulent assumption of the title would be more easy, and the detection of the fraud and its punishment more difficult; lastly, whilst the lower qualifications of the Royal College of Surgeons and of other Authorities which grant more than one qualification would thus be excluded from the Register, it is conceivable that any Institution which grants only one qualification would hold to the interpretation that its *single qualifying title* might be registered.

The Council of the College of Surgeons cannot acquiesce in either of the alternatives thus explained. It cannot see its way legitimately to increase the Examination for its Membership; and it cannot fail to foresee that were that diploma deprived of its character as a qualifying title, it would, after no great interval of time, cease to be sought for. Whilst therefore, as already stated, the Council enters its decided protest against the transference of any of its functions to a Medical Board, other than a share of those which relate directly to Medical Education and Examinations, it still more decidedly protests against the proposed exclusion of its now registrable title of "Member" from the Register of future Practitioners. The Council recognizes in this proposal a distinct ignoring of the opinion, expressed by influential witnesses before the Royal Commission, and on other occasions, as to the desirability of all registered practitioners becoming not only licensed to practise, but affiliated either to a University, or to at least one existing Medical Corporation. This proposal would interfere with the desired twofold result, namely, that of the grant both of a license and of a diploma, after one complete and adequate Examination. The proposal likewise ignores the belief, expressed by others, that, in future, under the plan of a common license, separate from an affiliating diploma, most persons would content themselves with a license and not proceed to affiliate.

The Council would also direct attention to the fact that, although the "Medical Act Amendment Bill" is stated to be framed on the basis of the Report of the Royal Medical Acts Commission, the proposal in regard to the non-registration of the lowest Medical titles is in conflict with paragraph 80 of that Report, which is as follows:—"We think that all titles now registrable, if recognized by the Medical Council, and all titles of a similar character hereafter recognized by the Medical Council, should be registrable."

The Council, in conclusion, feels bound to record its strong objection to what it regards as an attempt to substitute the anomalous title of "Licentiate of the Medical Council," conferring no sort of privilege or status beyond what would be obtained by the simple insertion of a person's name in the first column of the Register, for the older and time-honoured distinction attached to its Membership, or so-called "lowest" qualification. Moreover, the position of a present Member of the Royal College of Surgeons, duly registered, would be liable to be brought into disadvantageous comparison, in a Coroner's or other Court, or elsewhere, with that of a person registered as a "Licentiate of the Medical Council," since the latter might claim that the title of Member of the College having been discredited by its abolition, was inferior to his own. The Council desires, in leaving this subject, to reaffirm its conviction as to the advantages of ensuring, in the simplest and least expensive way, affiliation of a Licentiate with some existing Medical Authority, both as respects the individual members of the Profession and the Public generally.

## II. PROPOSALS RELATING TO DETAILS IN THE WORKING OF THE CONTEMPLATED ACT.

As regards these proposals, the Council desires to express very briefly the following opinions:—

1. *Constitution of the proposed Medical Boards.*—As the schemes framed by these Boards will chiefly affect the Education and Examination of future General Practitioners and not of University Graduates, and will therefore concern the Corporate Bodies more seriously than the Universities, the representatives of the former Authorities in England should not (Clause 9, Sect. 3) be in a minority on the Board. They are not proposed to be so in Ireland (Sect. 5).

Contrary to the proposals (Clause 9, Sections 9 and 12), according to which "any person of full age" may be a Member of a Medical Board, and "the same person may be a Member of more than one Medical Board,"—all the Members of the Medical Board should be Members of the Medical Profession; and no person should be a Member of two Boards.

2. *Constitution of the future Medical Council.*—With regard to the appointment of lay Members on the Medical Council, it may be observed that the Medical Profession might well be regarded as capable of managing its own affairs; a layman might feel more difficulty than a professional member in arriving at decisions on professional questions; and the permission, as it now stands (Clause 14), would allow the election of an indefinite number of non-medical representatives, and therefore it ought, at least, to be expressly restricted.

3. *Duties of the Medical Boards.*—It would be better to leave the control of the Preliminary Examinations and of the Registration of Medical Students to the Medical Council or its delegates, as now, and not transfer this work to the Medical Boards, as proposed in Clauses 19 and 38. It is important that the Medical Boards should refer their Schemes, for consideration and comment, to the constituent Medical Authorities, as well as to the Medical Council, for approval; and the Medical Authorities should have a right of appeal to the Medical Council and to the Privy Council in relation to those Schemes: this is not provided for in the Bill. The Medical Boards, presumably receiving no fees either for the registration of Students or for any Examinations, need make no payments. Their members should receive no compensation; their expenses in 1883.

connection with the framing of Schemes and their office expenses in carrying these into effect by Certification or otherwise should be paid by the Authorities concerned in the Examinations and in granting the affiliating diplomas. The expenses of visitations of the Medical Schools and of the Examinations should be paid by the Medical Council, who would thus control the same. The power of authorizing persons to prosecute for offences under the Act should not be exercised by the Medical Boards, and preferably not by the constituent Medical Authorities (Clause 28, Sect. 5); but it would be better to be in the hands of the Medical Council and of the Public Prosecutors. Neither should the Medical Boards have the management of the election of the representatives proposed to be returned as Members of the Medical Council by the resident registered Practitioners of the three divisions of the Kingdom (Clause 55); for such work would be quite unsuitable and distasteful to a Board specially elected for duties of a totally different character.

The discontinuance of the existence of Branch Councils, implied in the Bill, need not lead to the transference of unsuitable duties to the proposed Medical Boards: for, under the name of "Executive Committees," Branch Councils might be retained and perform such functions.

Finally, the proposal to levy on every Practitioner already registered an Annual Registration Fee (Clause 38, p. 22) should be abandoned. It would certainly be evaded; it would be difficult to be enforced; to disfranchise a person for non-payment would be most unpopular; a person could not reasonably be removed from the Register on account of non-payment; five annual fees would have to be paid for one quinquennial electoral privilege: and it would be justly maintained that the original registration fee is sufficiently large to meet all the requirements of the Medical Council, which has accumulated in twenty-five years a Capital of upwards of £25,000.

At the Extraordinary Meeting of the Council on the 4th of April, 1883, the Medical Act Amendment Bill (1883) was further considered, and the following Petition to the House of Lords was approved and adopted, viz.:—

TO the Right Honourable the Lords Spiritual and Temporal of the United Kingdom of Great Britain and Ireland in Parliament assembled.

### THE MOST HUMBLE PETITION

OF THE

PRESIDENT, VICE-PRESIDENTS, AND COUNCIL OF THE ROYAL COLLEGE OF  
SURGEONS OF ENGLAND,

SHOWETH:—

1. That the Royal College of Surgeons of England, acting under its several Royal Charters, has, since 1800, granted, after its own Examinations, the Diploma of Member, which, under the Medical Act of 1858, entitles its holder to be placed on the Medical Register and to enjoy all the Rights and Privileges secured to him by that Act.

2. That the Medical Act Amendment Bill, at present before your Honourable House, would, if passed, deprive future Members of the College of their right to registration, would thereby seriously diminish the value of the Diploma, and even endanger the existence of the College itself.

3. That there are now on the roll of the College 16,226 Members, independently of 1167 Fellows, who are also Members, all of whom would be injured by the title of Member ceasing to be registrable and by its being superseded by a new title bearing no relation to the College.

4. That the Examinations of the College are so efficiently conducted as to secure to the Public a body of well-qualified Surgeons.

5. That the elaborate and probably costly system proposed in the present Bill for the future conduct of the Examinations for qualification to practise Medicine, Surgery, and Midwifery, through the intervention of new and permanently incorporated Medical Boards, with almost independent powers, is a hazardous experiment which would lead to no improvement in the supply to the Public of well educated and skilful Surgeons.

6. That there are many other detailed provisions in the Bill which are open to serious objection.

Your Petitioners therefore pray that your Lordships will not give your sanction to the Bill in its present form.

And your Petitioners will ever pray.

L. S.

Given under the Common Seal of the  
College this fourth day of April 1883.

The Council at this Meeting also approved and adopted the following Circular to the Fellows and Members, explaining to them the effect which some of the provisions of the Bill would have on the interests of the College should it become Law, viz.:—

#### Medical Act Amendment Bill.

THE Council of the Royal College of Surgeons of England directs the attention of the Fellows and Members of the College to the following as some of the results of the above-named Bill if it became Law, viz.:—

1. That on and after the 1st January 1885 the Diploma of Member of the College will not be recognized as a "qualifying" title for the purpose of registration.

2. That the present Members of the College, although they would still be registered by their Title, would be liable to be brought into disadvantageous comparison with persons registered as possessing the proposed new title of "Licentiate of the Medical Council in Medicine, Surgery, and Midwifery," since the latter might claim that the title of Member of the College, having

been discredited by its non-recognition as a "qualifying" title, was inferior to their own.

3. That there is no *guarantee* that the College would be appointed to carry on the Surgical part of the Examination for the required Licence to practise; and beyond the small privilege of electing, about once in five years, one fifth of the representatives of the Medical Board for England, the College would have no control over the efficiency of the Final "qualifying" examination.

4. That power would be taken by Clause 38 of the Bill to levy on every Practitioner already registered a vexatious annual tax, the non-payment of which would involve the liability to removal of his name from the register.

Should the Fellows and Members of the College, after perusal of the foregoing statements respecting some of the probable results of the proposed legislation, be of opinion that such results will be detrimental, not only to their interests, but also to the welfare of the Public, and will even endanger the existence of the College itself, they will, without doubt, exercise all the influence they possess, whether by petition to Parliament or otherwise, to prevent the Medical Act Amendment Bill from becoming Law in its present form.

The Council does not propose to offer any opposition to those parts of the Bill which relate to the direct representation of the Medical Profession in the Medical Council.

EDWARD TRIMMER,  
*Secretary.*

4th April, 1883.

N.B. A *full* statement of the objections of the Council to the Bill may be obtained by any Fellow or Member of the College on application to the Secretary.

At the Quarterly Meeting of the Council on the 12th of April, 1883, the President reported, as the result of the interview of himself and the Vice-Presidents with the Lord President of the Council, that there was every reason to believe that the Medical Act Amendment Bill (1883) would be so modified as to render it undesirable that it should be opposed in its further progress.

At this Meeting a letter was read from Dr. Pitman, reporting the approval of, and acceptance by, the Royal College of Physicians of London of the Scheme for constituting an Examining Board for England by the two Colleges.

At the Ordinary Meeting of the Council on the 10th of May, 1883, the President reported, on behalf of himself and the Vice-Presidents, that, since the last Meeting of the Council, the Medical Act Amendment Bill (1883) had passed through its several stages in the House of Lords, and had in its progress been so modified as to secure the principal alterations in it desired by the Council, especially in reference to the following four points, viz.:—(1) the increased representation of the College in the Medical Board for England; (2) the abolition of the proposed new title of

Licentiate of the Medical Council in Medicine, Surgery, and Midwifery; (3) the registration of the Diploma of Member of the College; and (4) the omission from the Register of any distinction between "higher" and "lower" titles.

It was thereupon resolved, *nem. con.* :

That the Medical Act Amendment Bill (1883) as modified and introduced into the House of Commons meets with the general approval of this Council.

At this Meeting the following letter from Mr. John Marshall, reporting, as Representative of the College, the proceedings of the General Medical Council, was read, and directed to be entered on the Minutes, *viz.* :—

*To the President and Council of the Royal College of Surgeons of England.*

10 Savile Row,  
10th May 1883.

GENTLEMEN,

I have the honour to lay before you the following Statement containing such of the proceedings at the recent Session of the General Medical Council as relate to questions which are of interest to this College.

In accordance with your Resolution of the 12th of April, 1883, authorizing and requesting me, as your Representative, to present to the General Medical Council, for its sanction, the Scheme and Regulations for a Combined Examination for the qualifications of Licentiate of the Royal College of Physicians of London and of Member of this College, I placed on the programme of business of that Council for the first day of its Session the following Notice of Motion, which had been agreed upon by the Representative of the Royal College of Physicians of London and by myself, as your Representative, *viz.* :

"That the proposal of the Royal College of Physicians of London and the Royal College of Surgeons of England, to unite or co-operate, under Clause XIX. of the Medical Act, in conducting the Examinations required for the Qualifications of Licentiate of the Royal College of Physicians of London and of Member of the Royal College of Surgeons of England, be sanctioned by the General Medical Council."

It was pointed out to us, however, previously to the first meeting of the General Medical Council, that that Body, having already sanctioned a Scheme for a Conjoint Examining Board for England, to be established by a Combination of the existing *seven* English Licensing Medical Authorities, and not having received any formal notification, whether from all or from any one of those Authorities, that such Combination had been dissolved or had not come into operation, could not legitimately sanction another Combination between *two* only of the same Authorities in the same division of the Kingdom.

Considering that no amount of argument could overcome this technical obstacle, I preferred, with the full concurrence of the Representative of the Royal College of Physicians, to withdraw the Notice of Motion which I had placed on the programme of business, and accordingly the Motion did not come before the General Medical Council.

The proposal of the two Royal Colleges for the purpose of instituting Combined Examination remains therefore without prejudice; and it will be for the Royal College of Physicians and the Council of this College, in certain eventualities, to direct such steps to be taken as may be necessary, to remove any formal obstacle to obtaining the sanction of the General Medical Council to any Scheme which they may hereafter propose.

The important questions relating to abuses in the employment of unqualified assistants have been fully investigated and reported on by a Committee of the General Medical Council: and the Council itself has expressed in a formal Resolution its adoption of the view, already acted upon in a single case in its previous Session, that the systematic employment of unqualified assistants as deputies in the treatment of the sick and wounded, for purposes of gain, is conduct to be condemned as infamous in a professional respect, and therefore liable to be punished by erasure from the Medical Register.

The Council, moreover, resolved to ask for a legislative enactment that such conduct should subject a qualified practitioner guilty of it to the same penalty as that proposed to be inflicted on a person practising without a qualification. It will be evident that such an enactment, unless very specially guarded, would interfere with the proper use of assistants of all classes, and with the training of Medical Students; and, accordingly, special provisos have been recommended in regard to those two points.

The Council has also invited the Registrar-General of Births, Deaths, and Marriages, to endeavour to obtain such changes in the Registration Act as will render the falsification of Certificates less frequent.

Instructions have been given by the Council for the formation and publication of a New Edition of the British Pharmacopœia.

No other subject of importance to this College was brought before the General Medical Council.

I am, Gentlemen,

Yours faithfully,

JOHN MARSHALL.

At the Ordinary Meeting of the Council on the 14th of June, 1883, the subject of allowing the Fellows to vote by paper as well as in person at the Annual Election of the Council was, on the motion of Mr. Cadge, brought under the consideration of the Council, and the following Amendment to the original motion was carried, viz.:

“That it be referred to a Committee to consider and report to the Council whether it is expedient that, at the election of the Council, the Fellows shall be allowed to vote either in person or by voting-papers, and, if so, in what manner.”

At the Quarterly Meeting on the 12th of July, matters of routine, including the elections to the several Collegiate Offices, engaged the attention of the Council.

EDWARD TRIMMER,

## THE MUSEUM.

THE Hunterian Collection, which forms the basis, and still a large proportion, of the contents of the present Museum of the Royal College of Surgeons of England, was originally arranged in a building which its Founder, John Hunter, erected for it in 1784, behind his house in Leicester Square.

John Hunter died October 16th, 1793, aged 65. By his will he directed the Museum to be offered in the first instance to the British Government, on such terms as might be considered reasonable, and in case of refusal to be sold in one lot, either to some foreign state, or as his executors might think proper.

In the year 1799 Parliament voted the sum of £15,000 for the Museum, and an offer of it being made to the Corporation of Surgeons, it was accepted on the terms proposed by Government\*.

In 1806 the sum of £15,000 was voted by Parliament in aid of the erection of an edifice for the display and arrangement of the Hunterian Collection; a second grant of £12,500 was subsequently voted, and upwards of £21,000 having been supplied from the funds of the College, the building was completed in Lincoln's-Inn-Fields, in which the Museum was opened for the inspection of visitors in the year 1813.

\* The following are the Terms and Conditions on which the Hunterian Collection, purchased by Parliament, was delivered to the late Corporation of Surgeons; which Corporation having become dissolved, the Members thereof were re-incorporated by Charter, dated the 22nd day of March, 1800, under the Title of The Royal College of Surgeons in London:—

1st. The Collection shall be open Four Hours in the Forenoon of two days every week for Inspection and Consultation of the Fellows of the College of Physicians, the Members of the Company of Surgeons and Persons properly introduced by them; a Catalogue of the Preparations, and a proper Person to explain it, being at those times always in the Room.

2nd. That one Course of Lectures, not less than twenty-four in number, on Comparative Anatomy and other subjects, illustrated by the Preparations, shall be given every year by some Member of the Company.

3rd. That the Preparations shall be kept in a state of Preservation, and the Collection in as perfect a state as possible, at the Expense of the Corporation of Surgeons, subject to the annual Inspection and Superintendence of the Trustees.

4th. That there shall be a Board of Trustees, to consist of sixteen (increased to seventeen by the Lords of the Treasury in 1856) Members, by virtue of their Public Offices, and of fourteen others, to be appointed, in the first instance, by the Lords of the Treasury, and afterwards to be elected, as Vacancies may happen, by a Majority of the remaining Trustees.

5th. That the Museum shall always be open for the Inspection of all or any of the said Trustees, who are to take care that the Corporation of Surgeons perform their Engagements respecting the said Collection. That a day be appointed for the annual Inspection of the Museum, by the Trustees acting collectively as a Board; and that they are also to have quarterly Meetings, for the transacting of any Business relative to the Museum, and for the filling up of such Vacancies as may happen in the number of the Trustees; and that the Corporation of Surgeons shall engage some Person to officiate as Secretary to the Board upon such occasions, and to issue previous Notice to the Members, in which he is to state particularly whether any Vacancies are to be filled up by new Elections.

In consequence of the large number of additions, this building became too small for the adequate display and arrangement of its contents; and more space being at the same time required for the rapidly increasing Library, the greater portion of the present building was erected, wholly at the expense of the College, in 1835, at a cost of about £40,000, and the Hunterian and Collegiate Collections were re-arranged in what are now termed the Western and Middle Museums, which were opened for the inspection of visitors in 1836.

Further enlargement of the building having become necessary by the continued increase of the Collection, the College, in 1847, purchased the extensive premises of Mr. Alderman Copeland, in Portugal Street, for the sum of £16,000, and in 1852 proceeded to the erection of the Eastern Museum, at the expense of £25,000, Parliament granting £15,000 in aid thereof. The re-arrangement of the specimens was completed, and the additional portion of the building opened to visitors in 1855.

The Hunterian Collection was estimated to consist of 13,682 specimens, distributed under the following heads:—

*Physiological Department, or Normal Structures.*

Physiological preparations in spirit .....	3745
Osteological preparations .....	965
Dry do. ....	617
Zoological do. ....	1968
Fossils :—	
Vertebrate .....	1215
Invertebrate .....	2202
Plants .....	292

*Pathological Department, or Abnormal Structures.*

Preparations in spirit .....	1084
Dry preparations (including bones) .....	625
Calculi and concretions .....	536
Monsters and Malformations .....	218
<i>Microscopic preparations</i> .....	215

Of the additions by which the size and value of the Collection have been so materially increased since it came into the possession of the College, very many have been presented by Fellows and Members of the College, and other persons interested in scientific pursuits. Among the largest contributions from this source have been the Collection, consisting of 847 specimens, presented in 1811 by Sir William Blizard, and a valuable series of Pathological specimens presented in 1851 by Sir Stephen L. Hammick. At the same time the Council of the College have availed themselves of various opportunities as they have occurred to purchase specimens of interest, especially at the dispersion of private anatomical and pathological museums, as that of Sir A. Lever in 1806, of Mr. Joshua Brookes in 1828, of Mr. Heaviside in 1829, Mr. Langstaff in 1835, Mr. South in the same year, Mr. Howship and Mr. Taunton in 1841, Mr. Liston in 1842, Mr. Walker in 1843, and, deserving of especial mention on account of the great number and value of the specimens acquired, those of Sir Astley Cooper in 1843 and Dr. Barnard Davis in 1880.

The Histological Collection, of which the 215 Hunterian specimens (prepared by Hewson) constitute the nucleus, was chiefly formed by the late Professor Quckett, with considerable additions by purchase from Dr. Tweedy J. Todd, Mr. Nasmyth,

and Professor Lenhossek. It now contains upwards of 12,000 specimens, all arranged and catalogued so as to be readily available for reference.

The superintendence of the Museum is confided by the Council of the College to a Committee of its Members, which Committee has held four meetings during the last year.

A summary of the progress made in the preservation, arrangement and augmentation of the Collection will be found in the following Report.

## ANNUAL REPORT OF THE CONSERVATOR TO THE MUSEUM COMMITTEE.

(Presented July 3rd, 1883.)

THE principal event which has taken place in the Museum since the last Annual Report, and one which has necessarily had a considerable influence in modifying the details of the work of the various departments, has been the cleaning, painting, and decoration of the whole of the interior of the three Museums. Twenty-six years had elapsed since this was last done, at the time when the building of the Eastern Museum was completed, and the deteriorating and darkening effects of the London atmosphere upon the ceiling and walls were becoming more and more evident. After consideration of reports upon the subject from the Museum and the General Purposes Committees, it was decided by the Council in July last that the work should be proceeded with at once. This involved, of course, not only considerable expenditure, but much labour in removing and replacing the whole of the specimens, interfering for the time with the ordinary avocations of the staff of the Museum, and also necessitated the exclusion of students and the public from the Collection for a period of five months, beginning on the 1st of August. The first question that presented itself in commencing the undertaking, that of the style of coloration and decoration to be adopted, involved much consideration. Formerly but two colours had been used throughout, a plain stone-colour and a pale grey. It was felt that it would be more in unison with the artistic tendencies of the age to introduce a little more variety and some more pleasing tints, and this the architectural features of the building readily adapted themselves to, and indeed suggested. At the same time it was considered very desirable to avoid anything like such elaborate and brightly coloured decoration as might be suitable to apartments used for other, as festive, purposes, but quite out of place in a Museum, where nothing should distract the attention from the real objects of interest it contains, the specimens, to which all adventitious decoration

should be strictly subordinated and harmonious. Having determined upon these principles, many experimental trials were made, under the professional advice of Mr. H. H. Statham, and with the assistance of several members of the Council; and the work was completed with a result which has met with a remarkable consensus of approval, considering the proverbial differences always to be expected in questions of taste. The opportunity was taken to do more than merely paint. A considerable number of necessary repairs were effected in various parts of the building, including the removal of all the broken or damaged panes of glass in the lights and in the cases, and the repolishing of the mahogany of the rail-cases in the galleries of the Eastern Museum, and of the floor-cases of the Western and Middle Museums.

The simultaneous removal of the whole of the osteological specimens from the wall-cases of the Western and Middle Museums, in order to repaint the interior, as well as the racks, bars, and shelves, had the great advantage of enabling us to rearrange them in a more convenient and accessible manner than hitherto, gaining on the whole considerable space, and especially to place them in accordance with the order adopted in the Catalogue now in progress; and thus for the first time to carry out the resolution passed at the meeting of the Museum Committee on the 10th of February, 1842,—“That, in pursuance of the authority given to this Committee by the Council, the fossil and recent Osteology be incorporated in one series,” as recommended by Professor Owen in his report to the Committee, dated December 21st, 1841.

#### PATHOLOGICAL SERIES.

Great progress has been made in the new edition of the Catalogue, in course of preparation by Sir James Paget, Dr. Goodhart, and Mr. Doran. The first volume, containing a description of the specimens illustrating General Pathology, in 203 pages, and extending to No. 546 D, was issued in October last. The second volume, containing the Morbid Conditions of the Blood, the Organs of Motion, and the Skeleton, containing 527 pages, and reaching to No. 2119 of the Series, is printed, and will be ready for distribution in a few weeks. This has been carefully revised, in passing through the press, by Mr. Eve. A portion of the third volume is already in the printers' hands.

Much attention has been paid to the condition of the old specimens of this series, as well as to the addition of new ones. The whole of those described in the first volume of the Catalogue have been carefully examined, and a very large proportion of them, almost all in fact, have been remounted. In doing this a great improvement has been made in their appearance, not only by the care bestowed in mounting, and the greater clearness of spirit, but also by the substitution of new bottles, of better shape and colour, and better adapted in size and form to the specimens, for the old ones wherever necessary. It is proposed to continue this process throughout the whole

of the series, for though it involves considerable labour and expense, the result in the improved condition of the specimens is such as to make it highly desirable. The additions to the series made during the year are, as may be seen from the list appended, both numerous and of much interest.

#### PATHOLOGICAL DRAWINGS.

At the meeting of the Committee on April 3rd, the following letter from the Chairman, Sir James Paget, was read:—

“It has often seemed to me that the value of the Pathological Collection of the College would be increased if, together with the specimens displaying the chief facts of Morbid Anatomy, there were also a Collection of Drawings, Photographs, and other such illustrations of the same or similar facts. However well any morbid changes of structure may be shown in specimens long preserved, some of the characters which they presented in their recent state are lost. Many or all of these may be shown in well-executed coloured drawings, or even in photographs. Such illustrations cannot indeed take the place of specimens or be substituted for them in the study or teaching of Morbid Anatomy, but they may be very usefully supplemental.

“In the hope that the Museum Committee will approve the formation of a collection of original drawings and other illustrations of Morbid Anatomy to be kept in the Museum, I have presented a set of 36 boxes, of appropriate size and construction, in which such a collection may be safely kept.

“I would suggest that the Collection should consist of original drawings, plain or coloured, and of photographs, whether of specimens in the Museum or of any other rare or interesting illustrations of Pathology, but not of published plates, such as may be found in the Library, unless it be in instances in which such plates represent specimens in the Museum.

“There are already in the Museum numerous original drawings, chiefly collected by Sir Astley Cooper, with which the proposed collection may be commenced; and it may fairly be hoped that, if the Committee should approve the design of thus increasing the value of the Museum, and should make it known, there are many Fellows and Members of the College who will gladly become contributors to it.”

It was therefore resolved, “That the suggestion of Sir James Paget be adopted, with the best thanks of the Committee for his donation of 36 boxes to contain the collection of drawings referred to in his report.”

The boxes are fitted to the drawers of one of the cases on the floor of the Western Museum, which will henceforth be devoted to this Collection. I may add that the unwillingness of Sir James Paget to accept the honorarium accorded to him for the delivery of the first Bradshawe Lecture in December last, was the occasion of his seeking some means by which the Museum might be benefited by the amount; and, after some consideration, he finally determined upon this excellent way of carrying out his

views. The inauguration of this collection of drawings will therefore always be associated with that eloquent exposition of the value of Pathological Museums.

#### ZOOLOGICAL SERIES OF INVERTEBRATED ANIMALS.

Many of the specimens illustrating the zoology of Invertebrated Animals which, being placed on the ground-floor of the Western Museum, are in a very conspicuous position, were losing spirit, and some had become discoloured. It was thought best, for sake of uniformity of appearance, to remount the whole, 269 in number. They are all in thoroughly good condition now, with clear spirit, and will not require attention for some years to come.

#### PHYSIOLOGICAL SERIES.

In consequence of the time occupied in remounting the specimens last mentioned and above 500 of those of the Pathological Series, but little has been done to this part of the collection. 21 preparations only have been remounted, and the additions have been less numerous than usual. These, however, include a very interesting series of dissections made by Mr. W. Pearson, to illustrate Mr. Power's course of lectures on "The Lacrymal Apparatus and Accessory Organs of the Eye," prepared mostly from animals procured for the purpose by Mr. Power, and which form a permanent addition to the Museum of considerable value and interest.

#### OSTEOLOGICAL SERIES.

So much of the articulator's time has been taken up in removing and replacing the skeletons for the purpose of cleaning and painting the Museums, and also in effecting various minor alterations and repairs, that he has had little left for new work; therefore the exhibition of articulated skeletons falls short of what is usual. I may, however, mention a well-mounted female human skeleton, in which the greatest care has been taken to preserve the relative position of the bones and the natural curves of the spine exactly as they existed before maceration. The constantly increasing number of Art-students who make use of the Museum for the study of human osteology has made this addition, as well as others of the same nature which are in progress, particularly desirable.

A skull, on which the attachments of the muscles are delineated with the greatest care and neatness, has been kindly contributed by Mr. S. G. Shattock, in continuation of the series of marked bones with which he has previously enriched the Museum.

The progress of the new Catalogue of this department of the Collection has been somewhat retarded by the confusion the specimens were necessarily in during a considerable part of the year; but that part relating to osteology of the orders *Primates*, *Carnivora*, and *Ungulata* is now printed, extending to No. 2120 on page 416; and the remainder is being proceeded with as quickly as is consistent with accuracy.

## THE LIBRARY.

THE formation of a regular Library may be said to have commenced in the year 1801, at which time and in succeeding years presentations and bequests of books, often in considerable numbers, were made to the College—the principal donors being Dr. Baillie, Sir Everard Home, Sir Charles Blicke, the widow of Mr. Sharp, Sir Ludford Harvey, Dr. Fleming, Mr. Cotton, and Mr. Long. The Court of Assistants also directed from time to time the expenditure of small sums of money for the purchase of books, and eventually voted a sum of £100 per annum for this purpose. Sir Charles Blicke, in the year 1816, invested the sum of £300, the proceeds of which sum were to be devoted to the same object. Some of the purchases thus made were considerable, as in the cases of the Libraries of Mr. Pitt, Mr. St. Andre, and Sir Anthony Carlisle, and books of importance were added at the recommendation of the Conservator of the Museum and others. In this way a Library of considerable value was gradually accumulated, but it was only accessible to a limited number of persons. In 1827 active steps were taken to render it more generally useful, and with this object catalogues and extensive lists of desirable acquisitions were ordered to be prepared. Large sums of money were also expended during this and the ensuing two years, amounting in the aggregate to nearly £6000. A Librarian was appointed, and in 1828 the Library, then containing 10,500 volumes, was thrown open to members of the College, and all other persons engaged in the pursuit of natural science were freely admitted. This large collection, thus opened, offered great facilities to the studious. By means of extensive additions, the collection was well nigh complete in works on Medicine and Surgery, both domestic and foreign, whilst it was also very rich in publications relating to the accessory sciences. The transactions of Academies and Societies, and the collection of periodical publications in general, owing to their completeness, and the difficulty with which access can be obtained to this class of literature elsewhere than in large libraries, formed a valuable feature. The maintenance of the Library from that time to the present has involved a very considerable expenditure of the funds of the College. It has been the object of those to whose care it has been confided to ensure the completeness and excellence of the collection, and great facilities of reference have been provided by the preparation of additional catalogues and indexes of subjects. During the past year there have been added to the Library 549 volumes, including 196 works and 336 tracts, pamphlets, essays, reports, and theses. The entire collection now consists of 39,197 volumes, comprising 15,351 works, and 39,753 tracts, pamphlets, essays, reports, and theses.
